

# Instruction Manual

Thank you for purchasing this product. Before using this product please read the instructions carefully. After reading the instruction sheet, please keep it with you for reference.

## Please carefully read the following.

If the product is not functioning correctly, please check the following.

### ① Controller can be used on the home screen but not in game

For the PlayStation®4, if the user account registered to the controller is different from the user account you used to start the game the controller will not function in game. Please use the controller to sign in with the appropriate user account before playing.

### ② Controller will not function even after pressing the PS Button.

If the PlayStation®4 is brand new or if all of the settings have been set back to default this product cannot be used on the initial setup screen. Use the DUALSHOCK®4 to complete initial system set up. Please charge this product fully before using it for the first time.

### Regarding Wireless Technology

This product uses a 2.4 GHz frequency band. Other wireless devices may use the same frequency band.

To prevent radio interference with other wireless devices, please pay attention to the following items:

1. Before using this product, please confirm that no other wireless devices are being used nearby.
2. In the unlikely event that radio interference occurs between this product and other wireless devices, change the area this product is used or turn the other wireless device off.

Please do not use in prohibited areas such as hospitals or near other electronic devices.

\* Cardiac pacemaker, other medical electronics, fire alarms, automatic doors, and other automatically controlled electronics.

### Regarding Battery

If batteries leak, please do not touch the acid with your bare hands.

- If acid gets into your eyes, immediately wash it with clean water and consult your doctor.
  - If acid gets onto your skin or clothes, immediately wash it off with clean water. For any injury, please consult your doctor.
- Do not place this product near heat sources or leave under direct sunlight. Overheating may cause malfunction.

Internal battery life may deplete over the time.

The charge and discharge life of the internal battery of this product is about 500 times. Battery life depends on storage method, usage, environment, etc.

If the battery life drastically diminishes or device stops functioning on a full charge, the battery life has come to its end.

Recharge the battery at least once a year to maintain function even if it has not been used for a prolonged time.

Lithium Polymer battery is recyclable resources. Please contact us in case of recycling.

Li-ion 00
